

E/CO/CREATIVE PEDAGOGIES YOUTH WORKERS MOBILITY

10-16 May 2022
Torralba de Ribota, Zaragoza. Spain

ABOUT THE PROJECT

“E/CO/CREATIVE PEDAGOGIES is about creative methodologies and community culture.”

Everyone has a creative side, in some cases it is on the surface and in others it is more hidden. We believe that this creative side has more opportunities to sprout if the environment is favorable, just like a plant.

This project will take place in may 2022 in a rural town close to Zaragoza.

The activities will be carried out in Pueblos en Arte, a cultural platform that connects art with the rural environment, generating new ideas from the countryside.

24 youth workers from Germany, Greece, Portugal, Italia, France, Romania, Poland and Spain will participate during 5 days.

The main objective of this project is to offer other pedagogies based on experimentation, sustainability and community culture that serve to develop projects that empower young people and awaken their most creative side. And at the same time promote eco-social values by practicing and by shared spaces for reflection.

OTHER OBJECTIVES

- Facilitate work dynamics based on trial and error, common work and care.
- Offer tools to help formulate, test, document and evaluate projects related to community culture.
- Share examples and experiences of similar projects that serve as an engine for new projects.
- Support and advice in the creation of specific projects during training, that can be developed in the countries of origin.
- Strengthening links and relationships between the participants.
- Design inclusive proposals, without discrimination for cultural, educational performance, social or gender reasons.

ABOUT US

Recreando Estudio Creativo

Is a non-profit cooperative that forms part of the social and solidarity economy and promote a different way of doing things, putting people at the centre and taking care of our environment through creativity.

Viaje a la Sostenibilidad

Work to promote environmental and social values among the youth. Viaje a la Sostenibilidad is an independent, environmentalist, and social non-profit organization based in Zaragoza (Spain) and has about 200 members.

Pueblos en Arte

Is a cultural platform that connects art with the rural environment, generating new ideas from the countryside. We are committed to art and culture as tools to reactivate territories affected by depopulation.
